

What's New In FinancialLink

Adam DiProfio

Director of Budget and Planning
Jacobs School of Engineering
x44950, adiprofio@ucsd.edu

What's New in FinancialLink

Goals for today

- Show changes to existing FinLink modules
- Demonstrate new FinLink modules
- Answer your questions about the changes

What's New in FinancialLink

Topics to be Covered this Morning

- New Look and Feel of Reports
- Changes to Ledger Reviewer
- Cost Center Management
- Changes to Projections Modules

New Look and Feel of FinLink Reports

COST CENTER MANAGEMENT

(C C M)

What is CCM ?

- A new FinancialLink module that houses Projects and COA Overrides
- Enhancements:
 - Multiple PIs and Fund Managers
 - Copy capabilities
 - Mass roles update
 - More robust for future enhancements

WHERE IS CCM?

Expense Projections Maintenance

Index: Fund: Organization: Program:

Project:

Please note:

All queries are logged for audit review, performance evaluation and problem resolution. You can enter an Index code or Fund code alone, or you can enter a Fund code in combination with Organization and Program codes. A Fund code submitted alone has the potential of generating a result that will force a query to terminate without presenting your results. The system will prompt you for either an Organization or Program code in combination with the Fund code, if it is determined that your request will cause this condition. An alternative is the FIND IFOP button. This button can be used to locate the Fund, Organization and Program codes associated with a particular or partial Index.
